

Introducing the TOPEX[®] Hardware **Contemporary “Modern Times” Collection**

Decorative hardware for the 21st century

(Elmwood Park, NJ, October 22, 2009) Topex, the international company that offers a unique selection of high-quality decorative hardware, introduces its Contemporary “Modern Times” Collection. The collection conveys a fresh simplicity of modern sophistication and refinement that simultaneously exudes comfort and usability. The smooth, clean style of the knobs and pulls uphold with elegance the “less is more” ideal deeply rooted in modernist design.

Ten knobs and seven pulls make up the collection. Stainless-steel-look and bright chrome finishes accentuate the collection’s cool techno feel. Knobs include geometric shapes of round, square, rectangle, cylinder, and triangle of varying sizes, dimensions, and contours. Pulls offered range from a wide, flat bench and bow shape to a profile and ruler influence.

List prices for knobs start at approximately \$10 up to \$37. Pulls list from approximately \$19 to \$61.

ABOUT TOPEX

TOPEX[®] Hardware is an international manufacturer of high-quality decorative hardware products with warehouses throughout the world. Topex’s unique designs come in wood, porcelain, and stainless steel as well as an assortment of rich finishes from the zamak family of alloys. Whether complementing modern, Euro, old world or traditional décor, Topex cabinet knobs and pulls add a touch of elegance. Products are sold at prominent decorative hardware and plumbing showrooms, online showrooms and at select kitchen and bath dealers nationwide. For more information about the Topex Contemporary Collection and other Topex products, call 201-794-7900 or visit <http://www.topexhardware.com>
